

BRIEF OVERVIEW AND OBJECTIVE

The Meristem Growth Exchange Traded Fund is an open-ended passively managed collective investment scheme consisting of a basket of growth equity securities and designed to fully replicate the performance of selected benchmark indices. The ETF seeks to offer unitholders exposure to extensively researched and carefully selected growth stocks with profitable prospects. Return objectives are long-term capital appreciation and dividend earnings. Profits earned are distributed to qualified unit holders in accordance with set timelines.

FUND COMPOSITION

The Exchange-traded fund has been structured by the Fund manager to fully replicate the weightings and performance of its benchmark index. The index is however reviewed bi-annually and further adjusted to reflect current market realities. The ETF is thereafter rebalanced in line with the reviewed index at the bi-annual dates. Price movement of stocks from the date the index is reviewed till the date the ETF is rebalanced contribute to the tracking error of the Fund.
