

FUND OVERVIEW AND OBJECTIVE

The Meristem Equity Market Fund (MEMF) is an actively managed, open-ended collective investment scheme which aims to achieve long term capital appreciation for its unitholders through investment in equity securities listed on the Nigerian Exchange (NGX). The Fund seeks to outperform its benchmark gross of fees by taking advantage of the economies of scale that accompany the pooling of funds while relying on its quality research capabilities to identify outperforming stocks to be held by the Fund.

ASSET ALLOCATION

In seeking to achieve fund objectives, the Fund Manager has set the target asset allocation within identified risk levels. The distribution of funds between asset classes may be an important factor in determining the investment performance over time. In the event of extreme market conditions, the Fund Manager may revise the asset allocation to preserve the value of the Fund for the benefit of Unitholders.
